"Market leaders in each line of business"

BRIEF HISTORY

THL ONE CORPORATION

A story begins with a vision is to implement high technology in human lifestyle every day. In 2007, we started to build the *Outsourcing Development Center* that firstly introduced in Japan. We focus on IT research & develop to provide strategic frameworks, platforms, software as well as human resources training programs for small and mid-size enterprises. In Jan 2021, THL Group and BSG One have been unified to develop SAP ERP partners and fulfillment in Vietnam.

OUR MISSION

Our mission is to share operation challenges with your business and provide applicable-valued solutions that help your business run smoothly, productively with a reasonable investment cost.

We always listen, identify, understand your pain points and design impactful strategies to address them. Our solutions are tightly structured, and focus on your entire business operations.

MANAGEMENT PHILOSOPHY

We compromise to what we deliver.
Our life spirit is about to deliver the top quality outcomes that proved by numbers.

DELIVERY IS LIFE

We focus on delivery date

QUALITY IS PRIDE

We confidently get rid of all
defects

NUMBER IS CHARACTER

We emphasize delivery and quality as
our top priority for customers

SAP BUSINESS ONE

- ☑ Financial Management
- ☑ Sales & Customer Management
- ☑ Purchasing and Inventory Control
- ☑ Analytics and Reporting

What is SAP Business One?

SAP Business One is also called the Best Practice Core Platform. It is an integrated solution that expands itself flexibly in accordance with business growth and is capable of managing the whole business process.

Boost greater control over your business management process by a compact enterprise resource planning SAP Business One. This small business management system connects and streamlines your processes - and drives profitable growth.

SAP BUSINESS ONE

SAMPLE EXPERIENCE

Integration

Core business functions such as sales, purchasing, inventory management, and accounting.

Strong visibility and control of business

Speed

Intuitive and easy to use

3 months to customize

A framework based on Accelerated Implementation Program (AIP)

Cost-efficiency

Quick set-up and optimization

Easy to use

Up-to-date technology at a reasonable price for small and medium-sized enterprises (SMEs)

MESOne

INTRODUCTION

MES allows managers to control all production lines from **Order Request** to **Delivery**.

It can be easily integrated with **ERP** (especially **SAP B1**), perfecting and unifying the production, operating and management system, creating a strong competition for businesses, completely digitizing the business.

MES is designed to be intended as an execution layer, fully integrable with lower layer as **POP**, which visualize and monitor Product Points, real-time with raw data from PLC, sensors, machines, scanning, detecting defects, as a core indispensable element of a **modern smart factory**.

LAST MILE DELIVERY

Where the problems solved

Most of last mile delivery services are facing with inventory tracking status in real-time online and it can lead to ineffective results.

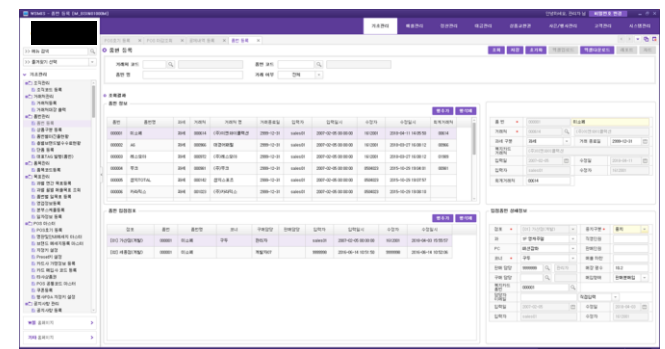

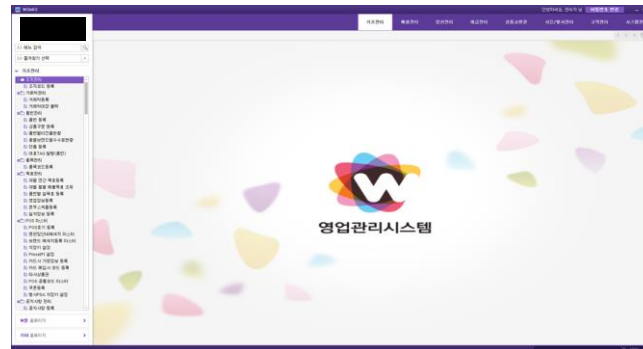

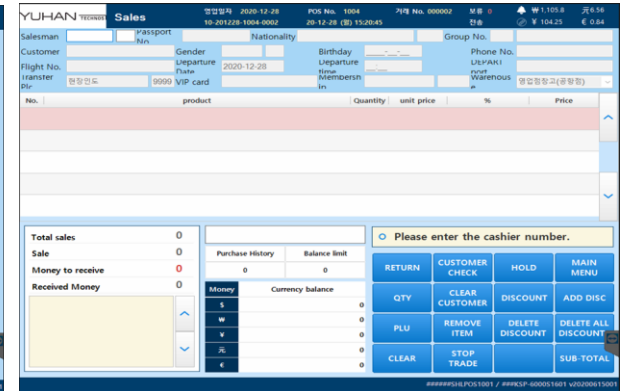

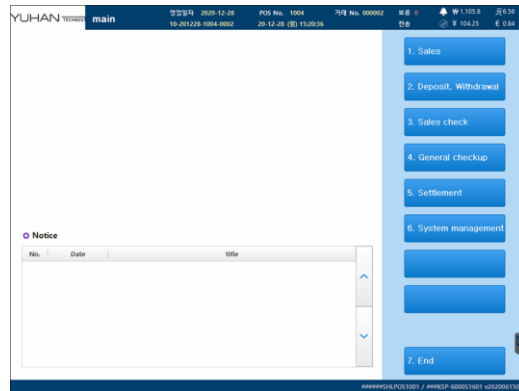

In order to solve these operation problems, we should add technology solutions to improve last mile logistics. The sourcing model has been prevalent in transportation, hospitality, food delivery, retailers with low start-up costs, asset-light operations, and improved customer experience to ease their last mile delivery issues.

POINT-OF-SALES SYSTEM FOR RETAIL & DUTY FREE

Advantages of switching to POS

1. Sales History
2. Inventory Management
3. Real-time in Sales
4. Money & Time Savings
5. Easy Tax Procedures
6. Financial Control
7. ERP Connectivity
8. Integrated Devices
9. Informative
10. Mobility
